## Life-Saving Animal Transport Vehicle Donation/Fundraiser

Frost Fund is a 501C3 nonprofit whose *mission is to provide hope and resources to animals and the people protecting them*. To date, we have saved over 25 red listed shelter dogs and over 30 cats just days before euthanasia through our Red List Rescue program.

California is the **number one** kill state in the country, euthanizing over 70,000 cats and dogs in shelters each year due to overcrowding and the inhumane stress many endure. Frost Fund has the opportunity to assist overcrowded shelters with larger transports of cats and dogs in potential threat of euthanasia to out of state shelters, where they have greater chances at adoption and survival.

**It is Frost Fund's greatest desire to assist in such life-saving transports, but we cannot do this without a transport cargo vehicle.** One that will allow us to effectively and safely transport larger numbers of animals at a time while adhering to USDA standards. For this reason, we are reaching out to local organizations in hopes that one might either want to *donate* a gently used transport cargo vehicle, *or* make a donation towards our transport initiative. All donations are tax deductible.

**Specifically, we are looking for a new or used vehicle of a similar design to one of these options:**

1. Ford Transit Cargo Van
2. Dodge Ram Promaster Van
3. Mercedes Sprinter Van (preferred)

Total costs for a vehicle such as this can range up to \$70,000.00. Any financial donation towards our transport initiative is incredibly helpful. However, should an organization/individual donate a vehicle similar to one listed above, we will gladly discuss adding their company name and logo to the vehicle, our website, social media, and will publicly thank them via a professionally made video they too can market. This Frost Fund vehicle will eventually be driving all over the country in the name of saving animals, *whose only chance at life might come in the form of a transport vehicle*.

To donate towards this initiative and/or to view recent Frost Fund rescue videos in the news, please scan the QR codes or click the links above each.

Thank you,
